

Dear Senator Casey:

As a business leader in Lancaster County, I am writing to express my strong **opposition** to the “Card Check” legislation and urge you to **Vote NO**.

Card Check runs counter to one of our country’s greatest traditions – the right to vote by private ballot. All workers, in every industry, deserve the fundamental American right to vote in private. This right is guaranteed when we vote in political elections; there is no reason why we should surrender this right in the workplace.

Vote NO when this legislation is considered.

Sincerely,

Dear Senator Specter:
