

# INSPIRE LANCASTER

**INSPIRE LANCASTER:**  
**CONNECTING BUSINESS AND EDUCATION**  
An initiative of the Lancaster County STEM Alliance & the Lancaster Chamber

## PREPARING STUDENTS FOR AN EVER-CHANGING WORKFORCE

The Lancaster County STEM Alliance and the Lancaster Chamber have teamed up to create and implement a workbased learning platform for employers, schools, students, and families in Lancaster County. This innovative project addresses one of the greatest challenges related to business and education partnerships: efficiently and effectively matching employers with schools and students who are interested in specific work-based learning experiences such as apprenticeships, internships, job shadowing, company tours, and mentoring opportunities.

By integrating with Inspire Lancaster's platform, employers can list work-based learning opportunities for students and school district career planners to choose from.

Through this exciting technology, inquisitive students can find out about your company via their fingertips!

**CREATE YOUR ACCOUNT HERE:**
